Num. 3003

MONDAY DECEMBER 27, 1743.

Since our last arriv'd a Staff from Holland, another from France, and a Third from Flanders.

Petersburgh, December 11.

TH E French Minister, M. de Choiseul, arrived here on the 5th, and very soon after had the Honour to be introduced to her Imperial Majesty as a private Person, and was very graciously received. He will lodge for the present at the House of the Privy-Counsellor Leffock; till the Palace, that is preparing for him, shall be ready for his Reception. The Day before Yesterday arrived here an Express from our Minister at Constantinople, with the important News, that the Persians had block'd up Bagdad, and that the Turks had offer'd to restore the Provinces formerly conquer'd from that Empire; upon which a Negotiation was begun. The Business of her Majesty's Title, which has hitherto been a Point so difficult to settle, is at last entirely adjust'd; his most Christian Majesty having not only given the Czarina the Title of Empress, but having also engaged the Emperor to do the same Thing; on Condition, however, that these Letters shall be expedited from the Chancery of Bavaria only, and not from that of the Empire. It is believed, that her Imperial Majesty will shortly extend some further Favour to the late Duke of Courland, and his Family.

MADRID, December 10. Our Ministers are at present in the utmost Agitation; and it appears plainly, that something of the last Consequence is on the Carpet. It is reported, that our Court has concluded a League Offensive and Defensive with that of Versailles; and that, in consequence of this new Treaty, the French are to furnish us with 10,000 Men of the Line, and 40,000 Men for the next Campaign; 10,000 of which are immediately to be transported to Italy. It is also said, that our Court has contracted to pay his Imperial Majesty an annual Subsidy of 5,000,000 of Crowns; and that France will allow him double that Sum. We have the melancholy News from Genoa, that the Plague, instead of being extinguish'd, is broke out again with greater Violence than ever in that Garrison.

LIBON, November 26. The Marquis de Gandia had Audience last Wednesday of the Queen and Princess of Savoy, by whom he was most graciously received. It is said, that he is to go Ambassador from his Catholic Majesty to the Court of Denmark; but so many strange Reasons are given for the putting off of his Voyage, that most People begin to be of Opinion, that he will never get nearer Denmark than he is at present; and that, after executing the Secret Commission with which he was charged to this Court, he will return back to Madrid, under Pretence, that he could not go by Sea to Copenhagen, without Danger of being taken by the English. On Wednesday last, in the Afternoon, his Majesty had two violent Fits of his Malady. The last held him so long, and deprived him so totally of Sense, that every Body thought him dead; but by rubbing his Arms, and taking away a great Quantity of Blood, he recovered; and is now as well as can be expected.

NAPLES, December 10. Orders have been sent to several Princes, and great Lords, who are at their Country Seats in Calabria, to return hither, to enjoy the wholesome Air of this City; but we do not find any of them inclined to make use of this Favour, as the Court would have it effected. On the contrary, they pretend to be either Sick, or under such Difficulties, with respect to their private Affairs, that they find it impossible to come to Naples. The Court, however, more than suspects the true Reason, and continues to levy, with great Diligence, fresh Troops daily; that it may be in a Condition to crush, in the very Beginning, any Insurrection. This Morning we had Advice from Pescara, that five English Ships had been sent in the Height of that Port the Day before, which has not a little heightened our Suspensions.

GENOA, December 14. Admiral Matthews is still at Genoa, and is drawing together all the Ships of the Fleet, which were dispersed in the several Ports in the Mediterranean; that he may be in the better Condition to receive the Squadrons belonging to France and Spain, which are said to be coming out of Toulon. Here they have been block'd up for two Years past. We expect, therefore, the News of a brisk Naval Engagement in the beginning of the Spring; for it is apparent from the vast Preparations of the French, that they are determined to risk a Battle, in order to open a Passage to Italy by Sea. They continue to press Seamen

at Marseilles, in order to send them to Toulon, where they are also taking up Transports as fast as they can get them; whence it is evident, that an Attempt will be speedily made to set Count de Gages, and his Troops, at Liberty. Hitherto the event has not justified our Fears about Final; and we begin, at last, to believe that the King of Sardinia will not employ Force to make himself Master of it.

BERLIN, December 24. Prince William of Hesse arrived here Yesterday, and was received with all the Marks of Respect possible by his Majesty. It is thought he will continue here three Weeks, or a Month. His Majesty has written to his Ministers in Foreign Courts, to disavow the Manifesto lately published in the Name of the Veldt Marshal Schwerin. He has likewise declared, that he is determined to maintain and support the Emperor against all his Opponents; but has, at the same time, written to the States General, to desire the Interposition of the Maritime Powers with the Queen of Hungary, while he makes use of all his Interest with his Imperial Majesty, to bring about a Peace. But that he may be prepared, at all Events, his Majesty has taken care to assemble 30,000 Men in the County of Glaz; and has ordered all the Officers in his Service to repair to their respective Posts in ten Days time, on Pain of being cashier'd.

VIENNA, December 22. Great Preparations are making here for the Marriage of the Arch-Duchess with Prince Charles of Lorraine; and the famous Poet Metastasio has composed an Opera, which is to be acted on that Occasion, and which will be put into Rehearsal next Week. General Count de Luchesi having fought a Duel with the Count de Paradi, in which they were both dangerously wounded, and Baron Trenck having slightly wounded Count Draschowitz, it is thought her Majesty will speedily publish a severe Edict against Duels. The Day before Yesterday there was a grand Conference held at Count Staremberg's, to which M. Lawzinski, the Russian Minister, was invited, and Yesterday there was another great Conference at Field Marshal Count Coniglegg's, who is somewhat indisposed, to which the same Minister was also invited. We make no Doubt, that both these Conferences turned on the Affair of the Marquis de Roux; but we are no longer under any Apprehensions, as to the Consequences of that Affair, since the Resolution is arrived from Petersburgh, of the Treaty lately concluded between our Sovereign and the Czars. This Morning Colonel Count de Colorado arrived here Post from the Army of Prince Lobkowitz. We are not, as yet, acquainted with the Motives of his Journey; only it is said, in general, that it relates to a Matter of the last Importance. The grand Duke will accompany his Brother, Prince Charles, and the Arch-Duchess, as far as Prague, from whence they will continue their Journey, by the Way of Dresden, to Brussels.

FRANKFORT, December 26. Baron Pahlm is actually arrived here, and the Creation of his Journey, is said to be her Hungarian Majesty's Memorial and Protests, which have made so much Noise in the World. The Elector of Mentz has transmitted hither a Memorial from the Circle of Suabia, complaining of the Works raised by the French upon the Rhine. It is very apparent by the Preparations that are making, that his Imperial Majesty intends, shortly, to render his Army 24,000 effective Men; and it is generally believed here, that these Forces will not continue long in their present State of Neutrality.

HAGUE, December 31. The States of the Province of Groningen have lately taken a Resolution, which plainly enough demonstrates their Design of falling in with the Views of the Courts of London and Vienna; so that, for the future, there will be five Provinces against two. This Accession, however, gives Great Joy to the Queen of Hungary's Party; and is said to be one of the Reasons which determined the Marquis de Fenelon to quit this Country so abruptly. In the mean time we have Advice, that this Minister is not gone directly to Court, but to his Government, which Causes some Speculation; as it is very far from proving his Interest to be so great, as his Favourers here would represent it.

Extra from the Paris Almanac.

PARIS, January 1. On the 27th of last Month his Majesty disposed of the Place of First Gentleman of his Bedchamber to the Duke de Richlieu; who, at the same time, resign'd his Post of Commandant of the Province of Languedoc; which the King, it is said, will give to the Marquis de Mirepoix. The Marquis de Fenelon, who arrived some Days ago from the Hague, went to Versailles on the 26th, and was well received by his Majesty.

The Count de Baviere, Ambassador Extraordinary from his Majesty to the Emperor, will very speedily have his Audience of Leave, in order to set out for Frankfort without Delay.

The Knights of the Holy Ghost that were proposed in the Chapter held at Versailles on the 2d of February last Year, and who could not be received into the Order at Whitehouse, will be received at the Chapter held this Day.

They write from Brest, that the Squadron of 14 Sail lately fitted out there, are still in the Road, and that they will sail for Toulon the 4th of next Month; and that they are working Night and Day to equip several new Ships, to sail at the same time.

They write from Strasbourg, that M. Coigny intends to visit the principal Places in Alsace; and that he will soon after return to Court, to report the Condition in which he finds them.

The same Letters add, that this General has receiv'd Orders for remounting his Cavalry.

They write from Hunningen of the 20th, that the Hungarian Troops quarter'd in the Neighbourhood of that City, have, of late, discontinued their Incursions.

Actions 2000.

CARTERET.

An Infallible and Instant Cure For DEAFNESS, THICKNESS of HEARING, PAIN or NOISE in the EARS, &c. by the Chymical Specifick DROPS.

WHICH infinitely excel all other Me-

dicines ever offer'd to the Publick, or known in the World for they directly cure Deafness, be it ever so bad, and all thick-ness of Hearing and Noise in the Ears, almost at once, and after all other Means have failed, as many Thousands have experienced Uneasiness whatever, as many Thousands have experienced.

They effectually remove all Pain occasion'd by Cold, Humors, the Tympanum or Drum of the Ear, free the auditory Nerve from Obstruction, and remedy all Defects of the Hearing Faculty, most in an instant, causing those to hear exceedingly good and well, who before were in a manner totally deaf.

Hundreds who were so very bad, as not able to hear a Word when beat close by them, and therefore despoiled of all pleasure ever relieved, have been quickly and perfectly cured by these to their great Joy and Admiration.

In a Word, nothing in Nature can come near them for the cure and almost immediate Cure of DEAFNESS proceeding from what Cause soever; but the great Effect and Reputation they have justly gained for many Years past, have occasion'd (as usual in such Cases) many Counterfeits to come abroad; beware therefore of such Impositions, these excellent and only true Specifick Drops, to be had only, by the Author's Appointment, of the following women at the two Blue Posts in Haydon-Yard, in the Strand, 1 s. 6 d. a Bottle, with Directions, and so where else in Europe.
